Good afternoon Catherine,

We have received a request to use the Township Park for overnight camping by the Orangeville Community Outreach for an event on Saturday October 10, 2026. (perhaps the 9th and the 10th.)

I am attaching the Ordinance, Resolution, and the current park sign.

Our insurance risk control representative advised us to have the Ordinance reviewed by our attorney due to its age. They recommend that townships review ordinances every three to five years for necessary updates.

I am also attaching the Agenda Item that was presented at the July 7, 2026 board meeting.

The OCO would like me to make an exception in accordance with the resolution of April 5, 1983. We did talk about that, and I stated that I wasn't comfortable with their request, but in rereading it today, I don't believe that the resolution allows for what they are requesting.

This agenda item was tabled to the August 11, 2026 meeting. I am following through with the board's request to check this out with our insurance agent. Now I am following through with their recommendation to check with you.

Please advise as to the question of whether the resolution covers this type of request. I agree that the Ordinance should be reviewed and a new Ordinance be crafted for board approval.

In any case, right now I am requesting guidance as how to move forward and inform the board of your recommendation at the August township board meeting.

If you have any questions, please let me know.

Thank you very much.

Good Afternoon Ms. Conner,

It was a pleasure speaking with you today. I can see why the Township is concerned about providing permission to allow a nonprofit to camp at the park during the second weekend in October given the language of the ordinance. The ordinance applies to all Township parks. It is a police power regulatory ordinance and prohibits the overnight use of the parks under section 2. 1. The resolution from 1983 does not change or override that provision. The ordinance does allow flexibility for special events under Section 2. 4. The violation section of the ordinance has a single fine for \$100.00 with a criminal penalty as well. That should be changed to having a civil infraction penalty for any violation of the ordinance. I doubt the Township wants to criminalize a Park ordinance violation. Further, with a criminal penalty there is a higher burden of proof that must be met for a criminal violation which is beyond a reasonable doubt. With a civil infraction, the burden of proof is by a preponderance of the evidence which means that the violation is proven if the Township shows through evidence that the violation more likely occurred than not. There is no right to a costly and time consuming jury trial for civil infractions either.

The Ordinance can be amended. It may be a good time for the board to look at the ordinance and decide what sort of flexibility it would like to have in the ordinance. For example, a provision allowing for over night camping could be inserted for special events to include camping. Also, the language can be drafted to allow for the Supervisor, the Township Code Enforcement officer or other designated official to act and issue permits for special events and overnight camping. The ordinance could have a provision allowing the Township Board to create rules for the Parks as the Board sees fit from time to time. With such a provision, there would be no need to amend the ordinance to address and update the rules. Please let us know what the Board would like to see in an updated ordinance. Thank you.
